Saloni Agarwal *Data Science | AI/ML | Frontend Development*

✉ saloniagarwal1110@gmail.com
9024342407 ■ Abu Road, Sirohi, Rajasthan

PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student and aspiring Data Science / AI-ML professional seeking an entry-level opportunity. **Hands-on project experience** in Python, data analysis, machine learning, deep learning, frontend development, and practical model deployment. Experienced through projects involving loan approval prediction, bike price prediction, and RNN-based weather prediction.

EDUCATION

B.Tech – Computer Science Engineering, Chartered Institute of Technology 2023 – 2027
CGPA: 8.13 | Abu Road, Rajasthan

Class 12th – St. Anselm Sr. Sec. School, Abu Road | 71%

Class 10th – St. Anselm Sr. Sec. School, Abu Road | 73%

TECHNICAL SKILLS

Programming: Python, C, C++
Frontend Development: HTML, CSS, JavaScript
Data Science: Pandas, NumPy, Matplotlib, Data Cleaning, EDA
Machine Learning: Linear Regression, Logistic Regression, KNN, SVM, Decision Tree, Random Forest, Model Evaluation
Deep Learning: TensorFlow, Keras, RNN
Tools & Frameworks: VS Code, Git, GitHub, Flask

PROJECTS

Portfolio | *HTML* | *CSS* | *JavaScript*
• Developed a personal portfolio website to present education, skills, projects, and certifications.
• Implemented a responsive frontend layout using HTML, CSS, and JavaScript.
To-Do List | *HTML* | *CSS* | *JavaScript*
• Built a task-management frontend application for adding, viewing, and managing daily tasks.
• Focused on simple user interaction and clean frontend design.
Online Bakery Delivery Project | *HTML* | *CSS* | *JavaScript*
• Developed a frontend web application for an online bakery with product sections and cart/sidebar functionality.
• Created responsive pages and interactive user-interface elements.
Loan Approval Prediction System | *Python* | *Pandas* | *Scikit-learn* | *Flask*
• Built a classification system using Logistic Regression, Decision Tree, Random Forest, SVM, and KNN.
• Used income, credit score, loan amount, years employed, and points for prediction and integrated the model with Flask.
Bike Price Prediction | *Python* | *Pandas* | *Scikit-learn*
• Built a regression model to predict used-bike prices using kilometers driven, owner, age, power, and brand.
• Compared regression models using R^2, MAE, MSE, and RMSE.
Weather Prediction using RNN | *Python* | *TensorFlow/Keras* | *RNN*
• Developed a time-series weather prediction project using an RNN-based deep learning model.
• Prepared sequential data, trained the model, and generated predictions from learned temporal patterns.

TRAINING & CERTIFICATIONS

• Data Science with AI and ML – Upflairs, Jaipur
• Web Development – Internshala
• Prompt Engineering – Internshala
• Web Designing – MSME
• C Language Certificate

ADDITIONAL STRENGTHS

• Strong interest in Data Science, Artificial Intelligence, Machine Learning, and frontend development.
• Comfortable learning through hands-on projects and practical implementation.
• Seeking entry-level opportunities to apply technical skills and continue building industry experience.
